

THE DALGONA COFFEE CRAZE

Hi, there all you coffee lovers!

It's been a while since we saw your faces and can't wait to open our doors again. But until then we are here to keep you entertained and share some interesting ideas.

So, for anyone out there, that loves social media, you must have seen this new Dalgona craze that has started.

Dalgona coffee is a whipped coffee served cold and is also referred to as the Fluffy Coffee drink.

The recipe and videos of Dalgona coffee made it's rounds in South Korea when videos hashtag #dalgonacoffeechallenge spread over YouTube and then went viral across the globe through the video-sharing app, TikTok.

It is an absolute hit and all that is an influencer has tried and shared it.

We, coffee lovers, were quite curious so we tried it. Honestly, it is worth it and so easy to make.

So, we thought we would share this with.

All you need is:

2 tbsp. granulated sugar

2 tbsp. instant coffee

2 tbsp. cold water

Ice, for serving

Milk, for serving

I know! You already have everything in your kitchen cupboards, no need to go shopping.

Now the how;

Combine the sugar, coffee, and water in a medium-size bowl. Vigorously whisk (and I mean vigorously, you can skip your workout for the day) until the mixture turns smooth. Then continue whisking until it thickens and forms a fluffy/foamy texture.

Now fill your glass with the milk and ice leaving some space for the foamy coffee. Then dollop the whipped coffee on top. You can mix it before drinking, but either way it is a treat for the taste buds.

And voilà. It is easy to make. So quit baking banana bread and get into the next lockdown craze.

Back in the Xpresso kitchens, we are also working on some new recipes of our own and as soon as we have some new delicious items to share, you will be the first to know.

So, until next week, we hope you enjoy this treat.

Maybe next week there will be a Hot chocolate Dalgona recipe to share.

Keep safe.
